### EYE CAMP & SURGERY:

In December 2021, ECP conducted five eye camps in the Panchagarh district by using the mobile eye clinic - Noyon Tori (NT) in collaboration with ECP's partner hospital – SAF Hospital. At these eye camps, 924 patients were screened and 205 cataract patients were identified. Surgeries were successfully performed on 173 patients at SAF Hospital, an ECP's partner hospital. At these eye camps, ECP gave away 193 eyeglasses to correct refractive errors of screened patients. Masks (290) were provided to those without masks. Body temperature of patients were also measured at the entry point of eye camp. In addition, 660 basic eye care awareness flyers and posters were distributed among the patients.

### MORE EYE CARE NEEDED:

There are a large number of cataract patients in rural areas who cannot access eye care services due to the lack of eye care facilities and high cost. Many become and remain blind due to fear of surgery and lack of awareness. ECP-MSS reaches out to them via eye camps in remote rural areas.

With a huge backlog of cataract patients, ECP-MSS team continues its efforts to raise fund to deal with the challenge. Only Tk.3500 can restore a vision of a blind person to see again. Please donate to enable a person to see again. It is the gift of vision- the most valuable gift for someone who cannot see.
